PRASHANT SHISHODIA

React Native Developer

Noida, Uttar Pradesh | +91 7017660744 | Shishodiap57@gmail.com | linkedin.com/in/prashant-shishodia-971224258

PROFESSIONAL SUMMARY

Results-driven React Native Developer with 1+ year of professional experience designing and delivering high-performance, cross-platform mobile applications for Android and iOS. Proficient in JavaScript (ES6+), React Native, Node.js, and Express.js. Skilled in RESTful API integration, state management (Redux, Context API), UI/UX implementation, and performance optimization. Adept at translating Figma designs into production-ready code and collaborating in Agile/hybrid team environments.

TECHNICAL SKILLS

Mobile Development: React Native, Android (React Native CLI), Cross-Platform Development

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, RESTful API Development, WebSockets

Database: MongoDB

State Management: Redux, Context API, React Hooks

Libraries & Tools: Axios, React Navigation, React Hook Form, Yup, FlatList

Payment Integration: Razorpay Payment Gateway

Maps & Location: Google Maps API

Debugging & Testing: React Native Debugger, Flipper

Design Tools: Figma, Adobe XD

Soft Skills: Problem Solving, Team Collaboration, Agile Development, Code Review

PROFESSIONAL EXPERIENCE

React Native Developer (Junior) | **ArgosMob Pvt. Ltd.** | Noida, Uttar Pradesh (Hybrid) *Oct 2025 – Apr 2026*

- Developed and maintained cross-platform mobile applications using React Native for Android and iOS
- Converted Figma and Adobe XD wireframes into functional, pixel-perfect UI components
- Built reusable, modular components that reduced code duplication and improved team productivity
- Implemented multi-screen navigation using React Navigation (Stack, Tab, and Drawer navigators)
- Managed complex application state using Redux and Context API with React Hooks
- Integrated RESTful APIs using Axios, including error handling, retry logic, and loading state management
- Optimized application performance using FlatList virtualization and image caching techniques
- Implemented client-side form validation using React Hook Form and Yup schema validation
- Identified and resolved UI and runtime bugs using React Native Debugger and Flipper tools
- Participated in code reviews and collaborated with backend developers in an Agile hybrid environment

PROJECTS

Bhardwaj Hospital Management App — *React Native, Redux, Razorpay, Google Maps API*

- Designed and developed a hospital management mobile application using React Native
- Implemented secure user authentication (login, signup, and session management)
- Built an appointment booking system with real-time availability and calendar integration
- Integrated Razorpay payment gateway to support online bill payments and transaction history
- Used Google Maps API for hospital location display, directions, and navigation services
- Managed global application state using Redux for consistent data flow across screens

Fornix AI Examination App — *React Native, REST API, Text-to-Speech, Payment Gateway*

- Built an AI-powered examination application supporting dynamic, timer-based quiz modules
- Integrated Text-to-Speech (TTS) for voice-based answer explanations to improve accessibility
- Connected REST APIs and a payment gateway to unlock premium content for subscribed users
- Developed a performance tracking dashboard with result analysis, score history, and progress reports
- Optimized quiz screen rendering for smooth performance on mid-range Android devices

EDUCATION

Bachelor of Computer Applications (BCA)

Inmantec Institutions, affiliated to CCSU (Chaudhary Charan Singh University), Meerut | Graduated: 2024
